MERN STACK DEVELOPER

MERN stack developer with 2 years of experience, specializing in dynamic, user-friendly web apps. Proficient in React, Node.js, Express, and MongoDB. Committed to delivering high-performance solutions tailored to client needs.

WORK EXPERIENCE

MERN STACK DEVELOPER | ProCohat Innovaitons

January 2022 - present

- Develop MERN stack web applications, including front-end interfaces with React and server-side logic using Node.js and Express.
- Design and manage MongoDB databases, ensure application security, and integrate third-party APIs.
- Debug, optimize, and maintain applications, adhering to coding standards and staying updated on web development trends.
- Collaborate with teams, meet project deadlines, and provide clear documentation while ensuring high-quality, responsive, and secure web solutions.

SKILLS

- HTML
 - CSS
 - JavaScript
 - Typescript
 - Bootstrap
 - ReactJS
 - Next JS
 - NodeJS
 - Angular JS
 - MUI
 - ShadCN
 - Firebase
 - PHP
 - Laravel
 - JQuery
 - GraphQL
- MySQL
 - MariaDB
 - Express JS
 - MongoDB
 - AJAX
 - Supabase
 - Laravel
 - Tailwind
 - SCSS
 - NextUI
 - Prisma
 - Code Igniter
 - Vercel
 - Docker
 - API Development
 - Wordpress

EDUCATION

B.Sc Computer Science Sant Gadge Baba Amravati University	Passout Year- 2021
MS-CIT Maharashtra state board of information technology, Mumbai	Passout Year- 2017

PROJECTS

Event Management SaaS Platform

- Proficient in HTML, CSS, JavaScript, Next.js, and React.js for crafting responsive and interactive user interfaces. Skilled in implementing and customizing UI components using NextUI and ShadCN.
- Experienced in building the backend with Supabase and Node.js.
- Proficient in Vercel for deployment and hosting, and adept in Git/GitHub for version control and collaborative development.

Hospital Management System

- Proficient in MERN stack development after creating a hospital management platform, showcasing my ability to design and implement comprehensive web applications.
- Skilled in database design, ensuring data integrity and efficient healthcare data management, particularly with MongoDB.
- Gained expertise in healthcare-specific security measures and compliance, safeguarding sensitive patient data and ensuring regulatory adherence.

EdTech Platform

- Leveraged the MERN (MongoDB, Express, React, Node.js) stack to create an EdTech platform with admin and student panels for video-based education.
- Engineered a user-friendly student portal for easy access to educational videos, enhancing the overall learning experience.
- Ensured data privacy and showcased adaptability to evolving EdTech trends, providing a secure and future-ready learning platform.

EV Charging Station

- Played a key role in creating an EV charging station platform using the MERN (MongoDB, Express, React, Node.js) stack.
- Proficient in building a responsive and user-friendly front-end interface with React to facilitate user interactions.
- Utilized Node.js for the back-end, ensuring efficient server-side operations and seamless data management for the EV charging station.

STRENGTH
